

FINAL APPLICATION

Overview

The Final Application for a C-PACE Project should be prepared and submitted by a Property Owner or its designated representative after receiving Pre-Application approval from the Philadelphia Energy Authority (PEA). Before submitting this application and the required attachments, be sure to review the Program Guidelines thoroughly and consult the application checklist on Page 3 of this document. Applicants are asked to submit all documents through an online file hosting service.

PEA will review the Final Application and its attachments to ensure compliance with the Program Guidelines, the Pennsylvania C-PACE Statute and the Philadelphia C-PACE Ordinance. PEA will typically provide the Property Owner with written Notice of Philadelphia C-PACE Approval or request for more information within fifteen (15) business days of submission of a completed Final Application, unless the project's technical features require additional technical review. If PEA finds that the Property Owner's Final Application is incomplete, PEA will notify the Property Owner who will have the opportunity to complete any missing information. Upon resubmission of a completed Final Application, the Program Administrator will typically complete its review within fifteen (15) business days and respond in writing with written Notice of Philadelphia C-PACE Approval or with an explanation of why the project did not receive final approval.

Upon receipt of the Notice of Philadelphia C-PACE Approval, the Property Owner, Capital Provider, City of Philadelphia and PEA may enter into the C-PACE Statement of Levy and Lien Agreement to officially create the C-PACE Assessment. The Property Owner will have submitted an execution-ready version of the C-PACE Statement of Levy and Lien Agreement with its Final Application. Once the Property Owner and Capital Provider sign, PEA will sign the agreement and will facilitate the City's signature. PEA will then record the fully-executed C-PACE Statement of Levy and Lien Agreement on the property through the Philadelphia Department of Records.

If you have any questions in the course of preparing or submitting your Final Application, please feel free to contact the Program Administrator:

FINAL APPLICATION

Instructions & Application Checklist

The Property Owner or its designated representative may fill out and submit the Final Application. If a designated representative is handling the application, attach an explanation of the relationship to the Property Owner and provide proof of authorization to take action and make representations on behalf of the Property Owner.

The Philadelphia C-PACE program has a lien-to-value limitation of 95%, meaning that the total encumbrances on the Property (including all mortgages and the C-PACE financing amount) must be less than 95% of the Property's value. Property Owners are asked to list the total amount of all obligations secured by the Property. Property Owners may use their City-assessed value or the value from a private appraiser. The assessed or appraised value used in the lien-to-value calculation may be based on the property value as is, or the projected property value after completion of the C-PACE project. In the case of new construction or gut rehab, the property value used in the lien-to-value calculation may be based on the projected property value upon completion of all planned work.

A checklist of items required to be submitted with this completed Final Application is on the next page.

General Provisions

Term of the Agreement: Qualified Contractor status shall commence on the date an application is approved by the Program Administrator and shall continue until terminated in writing by either party.

No Guarantee of Additional Business: Philadelphia C-PACE makes no representations or guarantees that the Qualified Contractor will obtain additional business revenue or opportunities through its participation in the program.

Relationship of the Parties: Qualified Contractor may present itself as a Qualified Contractor in the Philadelphia C-PACE Program. By submitting this self-certification, Qualified Contractor does not become an agent, employee, or representative of the Philadelphia C-PACE Program. The Parties shall not be considered to be joint ventures, partners, agents, servants, employees, fiduciaries, or representatives of each other, and no Party shall have the right or power to bind or obligate any other Party to, or third-party beneficiary of, these terms and conditions.

Indemnification: Qualified Contractor agrees to defend the Philadelphia C-PACE Program, the Program Administrator and each agency, officer, employee, agent or any other party acting for or on behalf of the Program Administrator (the "Program Administrator Indemnified Parties") from, and indemnify and hold each of them harmless against, any and all losses, liabilities (including settlement costs and amounts, transfer taxes, documentary taxes, or assessments or charges made by any governmental authority), claims, damages, interest judgments, costs, or expenses, including without limitation, reasonable fees and expenses of the Program Administrator Indemnified Parties' legal counsel or other professionals ("Losses") arising out of or related to any act or omission, negligence or willful misconduct, or the participation in the C-PACE Program of the Qualified Contractor, its directors, officers, employees, subcontractors, or agents of Qualified Contractor or its subcontractors, including, but not limited to, the failure of Qualified Contractor to properly and/or timely pay any wages and/or benefits to the Qualified Contractor's employees, provided that the Contractor will not be liable to the extent such losses arise from gross negligence or willful misconduct on the part of the Program Administrator as determined in a final and non-appealable judgment of a court or competent jurisdiction. The obligations of Qualified Contractor under this section shall survive termination or expiration of Qualified Contractor's status and shall

be in addition to the warranty obligations of Qualified Contractor. Qualified Contractor waives the right to bring or assert any claim against Philadelphia C-PACE and its vendors relating to its C-PACE Program participation and status as a Qualified Contractor (including listing as a Qualified Contractor) and releases Philadelphia C-PACE and its vendors from any and all liability therefore or relating thereto.

Appendix J: Mortgage/Lien Holder Consent

Notice of Proposed C-PACE Special Assessment and Request for Financial Institution Consent to Participate in Philadelphia C-PACE Program

Notice Date:

Financial Institution:

Street:

City/State/Zip Code:

ATTN:

Property/Loan Information:

Address:

Loan Number:

Why has the Financial Institution received this notice?

The Property Owner listed below owns the subject property. Your Financial Institution holds a lien, mortgage or security interest or other encumbrance on the property.

[Property Owner] wishes to install energy efficiency, water conservation, renewable energy, indoor air quality (IAQ) and/or resiliency upgrades to the property using Commercial Property-Assessed Clean Energy (C-PACE) financing known as the “Philadelphia C-PACE” program. The Property Owner requests your consent for the property to participate in the program.

Background on C-PACE in Philadelphia

Pennsylvania Statute (Act 30) authorizes Pennsylvania municipalities or counties to establish a C-PACE program in their communities. On August 14, 2019, Philadelphia Mayor Jim Kenney signed legislation creating the Philadelphia C-PACE program and designating the Philadelphia Energy Authority as the Program Administrator. C-PACE financing helps stimulate local economies by ensuring that owners of agricultural, commercial, multifamily (5+ units) and industrial properties can obtain low-cost, long-term financing for energy efficiency, renewable energy, water conservation, IAQ and/or resiliency projects.

With C-PACE, the financing for qualifying projects is repaid by a voluntary assessment on the property that is collected alongside the regular property taxes payments. Assessments have long been used to pay for improvements to real property that meet a public policy objective, such as sidewalks, parks, lighting districts, and water and sewer projects. Like other assessments, C-PACE Payments must be current upon the sale of a property and remain with a property upon sale. As with other assessments, if a property is sold in liquidation, any C-PACE Payment in arrears have the same priority status as a lien for any other tax.

To qualify, the proposed project must meet the following basic criteria:

- The property is located in Philadelphia;
- The property is an agricultural, commercial, multifamily (5+ units) or industrial property;
- The proposed measures reduce energy consumption or water consumption, increase the production of on-site renewable energy, improve indoor air quality (IAQ) and/or resiliency;
- The proposed measures are permanently affixed to the property;
- The property is current on all municipal property tax and assessment payments;
- The proposed project meets the requirements;
- **The Property Owner receives consent of the current mortgage/lien holder(s).**

Why should your Financial Institution consent to the C-PACE Special Assessment?

1. Projects financed through C-PACE generally reduce building operating costs or add important features that often will increase a property's collateral value. Under the Philadelphia C-PACE eligibility requirements, a proposed clean energy project must include a scope of work, an energy baseline or water usage baseline, and the projected energy savings or water usage reductions. A third-party Qualified Engineering Professional will confirm the energy savings assumptions prior to closing the financing. Lower operating costs typically raise a property's value, improving its collateral value for your Financial Institution's mortgage. IAQ and resiliency projects are likewise reviewed by qualified engineers and must show that indoor air quality will be improved and/or the building will be better able to withstand the impacts of a natural disaster.
2. C-PACE payments do not accelerate. In the event a mortgage holder or lien holder forecloses on the property for any reason, only the C-PACE payments currently due and in arrears would be payable, which is likely a relatively small proportion of the total amount financed. In the event of a property sale, the remaining C-PACE Financing runs with the land and would be paid by the new property owner as property taxes are due.
3. Projects financed through C-PACE often reduce maintenance and repair costs, and improve a building's health and comfort, making it more attractive to tenants and future owners.

What should your Financial Institution know?

[Building owner] has indicated its intention to apply for C-PACE Financing for improvements outlined in **Appendix A** on the property listed above. The C-PACE Financing will be levied on the property pursuant to an agreement among the property owner, the City of Philadelphia, Program Administrator, and the project funding source. The C-PACE Special Assessment terms will consist of:

- Total cost of improvements:
- Total C-PACE financing requested (+/- 5%):
- Annual interest rate not to exceed:
- Term of repayment:
- Total estimated annual C-PACE Payments:
- # Payments per year:

Purpose of this Notice

As required by the C-PACE Program Administrator, **[Name of Property Owner]** is sending this Notice of Proposed C-PACE Special Assessment and Request for Financial Institution Consent to Participate in Philadelphia C-PACE to:

- (i) Provide notice of **[Property Owner's]** proposed participation of the identified property in the program;
- (ii) Request confirmation from your Financial Institution (a current mortgage/lien holder) that the levy of the C-PACE Special Assessment will not trigger a default nor the exercise of any remedies under your Financial Institution's Loan documents,
- (iii) Provide notice that the C-PACE Special Assessment will be collected in installments that are subject to the same penalties, remedies and lien priorities as real property taxes, and
- (iv) Declare the **[Name of Property Owner]**'s agreement to pay on a timely basis both the existing obligations secured by the property (including the Loan) and the proposed C-PACE Special Assessment payments.

Execution and Return of Consent. The Property Owner would appreciate your Financial Institution executing the attached Consent to Participate in Philadelphia C-PACE and returning it to the undersigned at your earliest convenience.

Very truly yours,

Appendix L: Diversity and Inclusion Plan

As part of the Final Application, Property Owner must submit a statement outlining the ways in which the Property Owner and Qualified Contractor engaged on the C-PACE Project are committed to local and diverse workforce and business ownership. Equity and inclusion are a core principle of the work of the Philadelphia Energy Authority and are of paramount importance to the City of Philadelphia.

Property Owner should explain steps being taken to engage diverse, local suppliers and workforce, which could include actions such as (but not limited to) the following:

- a. Recruiting applicants for new or contracted positions who reside in the City of Philadelphia, who identify as minority, women, disabled, returning citizens, and/or veterans.
- b. Seeking descriptions from contractors of how they encourage diverse applicants when hiring.
- c. Engaging contractors and subcontractors to perform commercially useful functions who qualify as Minority Business Enterprises (“MBE”), Woman Business Enterprises (“WBE”) and Disabled Business Enterprises (“DBE”) (collectively, “M/W/DBE”). The M/W/DBE subcontractors must be certified by a Certifying Agency.
- d. Engaging contractors and subcontractors to perform commercially useful functions who are located geographically in or near the City of Philadelphia.
- e. Seeking contractors and subcontractors who employ a diverse, local workforce.
- f. Asking contractors to provide data on the diversity and residence of their employees.

Property Owner may choose to submit information in whatever format it deems most appropriate for its specific plan. The Program Administrator is seeking evidence of a thoughtful approach to diversity and inclusion, and how each project provides value and promotes equity for the City of Philadelphia. Plans must be specific to the proposed project. Generic plans will not be accepted. Property Owners, Capital Providers or Contractors may request a pre-review with the Program Administrator to ensure compliance.

Appendix M: C-PACE Disclosures and Recommendations

The Philadelphia Energy Authority, the Philadelphia C-PACE Program Administrator, urges careful reading of this document prior to signing and welcomes questions about any of its content.

As an authorized representative of the Property located at _____, I have read the following disclosures and recommendations to participate in the Commercial Property Assessed Clean Energy Program administered by the Philadelphia Energy Authority (Program Administrator) for the City of Philadelphia.

DISCLOSURES AND RECOMMENDATIONS (all boxes must be checked)

The Commercial Property Assessed Clean Energy (C-PACE) Assessment will be paid through a C-PACE Assessment ("Assessment") which is sent to the Property Owner annually in December consistent with the City's issuance of real property tax bills and will be due annually and payable on March 31, the same due date as real property taxes.

Assessments are secured by and attached to the real property. At resale, the new owner of the Property will be responsible for continuing to pay the Assessment unless it is paid in full by the Property Owner in accordance with prepayment restrictions in the Financing Agreement between the Property Owner and C-PACE Capital Provider.

The Assessment is non-accelerating which means that in the case of a missed payment, the C-PACE Capital Provider may only recoup that missed payment along with any interest and penalties. The payments due in future years are not collectible until the date they are due.

The Assessment shall be a municipal claim due to the City and payable to the Program Administrator. It will be enforced in the same manner that a City property tax lien against real property may be enforced. **If you fail to make your C-PACE assessment payment, the Program Administrator is authorized by law to enforce the payment obligation against the property owner and/or the property itself, which may include auctioning the property at a Sheriff's sale.**

The Program Administrator encourages the Property Owner to seek any necessary legal counsel or engineering support to review contracts and agreements as the C-PACE Assessment and associated capital improvements are typically large and complex projects.

For clean energy projects, the energy survey provides estimates of the energy cost savings associated with the project. **These are projections, not guarantees**, and are influenced by several factors including:

- a. Equipment must be properly maintained to continue operation as designed.
- b. Fluctuations in energy prices may increase or decrease the savings associated with the project. It is important to understand the assumptions being used to estimate energy cost savings which include the current price of energy and the escalation rate assumption.
- c. Changes in property occupancy may increase or decrease the savings associated with the project. The project's estimated savings are based on assumptions about the future occupancy and uses of the Property.

The Program Administrator does not endorse specific Indoor Air Quality (IAQ) solutions. Several of the prescriptive systems listed in the Program Guidelines Addendum are emerging technologies and may not have scientific evidence to prove their effectiveness and safety. The Program Administrator encourages all Property Owners to read the "[CDC Position on Emerging Technologies for Air Cleaning](#)" before selecting an IAQ solution.

IAQ and energy consumption interact with each other. IAQ measures installed without a whole building design approach may negatively impact energy performance. Proposed IAQ solutions should aim to optimize energy use and IAQ.

The C-PACE Assessment is invoiced on an annual basis with a single payment. The Program Administrator recommends a monthly set-aside to ensure funds are available when due (annually on March 31st).

Seek all available rebate and grant funding. Various rebates and grants for clean energy improvements may be available. The Property Owner or their contractors or representatives should apply for all available Federal, State, City, PECO and PGW rebates. The Database of State Incentives for Renewables & Efficiency (<https://www.dsireusa.org/>) may provide useful information on some available incentives.

The undersigned hereby represents that they are authorized to execute and deliver this document as a representative of the Property Owner and hereby certifies to the Program Administrator that:

1. The Property Owner has reviewed the C-PACE program requirements and the above Disclosures and Recommendations
2. The Property Owner has had the opportunity to consult with legal counsel
